Backline requirements

VOCALS

Jacob Ottosson (guitars and lead vocals) - Mic with stand - Alot of reverb & delay

Johan Ejnarsson (guitars and backing vocals) - Mic with stand - Medium reverb & very little delay

NOTE: Alot of reverb. A little bit compression on each vocal channel if possible. Delay.

GUITARS

1 x Bas amplifier

2 x 4x12" Guitar cabinets (two 2x12" works also)

1 x 4x10" Bass cabinet (2x10" or even 1x15" works also)

Minimum 6 sockets, two for each cabinet

2 x Guitar amplifiers with clean channels (We use our pedals for distortions and effects)

3 x sockets in front of the stage for the pedals

DRUMS

More detailed Stage Plot and Drum Setup available on request in a separate document!

Drummer can bring the following by himself:

1 x Double bassdrumpedals

Drumsticks and drum key

NOTE: Drummer is left handed & needs the drums to be a mirror image of a normal setup.

OTHER

We use backing tracks and will bring & use: Small mixer, aux cable (stereo - 2 mono) & laptop.

NOTE: We will need one input channel on the venues main mixer for the backing tracks.

IMPORTANT: We absolutely need to have soundcheck before going on stage!
